

HELP EVERY LAB LEAP FORWARD

Healthcare Lab Solutions from Legrand

Labs are filled with equipment, busy with personnel—and dependent on power. Ensure every lab runs smoothly with solutions that bring dependable power to right where it's needed. From medical research to vaccine development, choose reliable options that install quickly and leave labs headache-free.

designed to be better.®

Power at—or right above—the table.

Make every lab setup a breeze. Perfect for personnel at any workstation, these power and charging solutions bring connections within arm's reach. Install directly on tables or right above in tight spaces. No more scrambling for outlets.

Furniture Power Solutions

- Easy-to-install directly on tables or workstations
- Variety of sizes, shapes and finishes that blend right in

ModPower™ System

- The first code compliant modular power system
- Reconfigurable and flexible for moves, adds and changes
- Connect up to six units together to power multiple workstations

Prewired Raceway

- Comes wired and preassembled for quick installation in 1/3 of the time
- Ready for termination at the job site
- Easy-to-find, yet discreet

Plugmold® Multioutlet Systems

- Compact, low-profile design that hides from view
- Tamper-resistant version ensures safety to power multiple workstations

Pedestal Table Boxes

- Large capacity that can house back-to-back GFCIs
- Spill protection when combined with certain GFCIs and Hospital Grade Devices
- Can attach to sides of desks or lab benches

Power from the wall.

Step up electrical safety with healthcare-friendly devices. Whether you're running power to lab equipment near water or invested in daily deep cleans, these heavy-duty options are ideal for labs where failure isn't an option.

Hospital Grade PlugTail® Switches and Outlets

- Quick installation that's 5x faster than conventional devices
- Designed for heavy-duty applications in healthcare

Hospital Grade Self-Test GFCI Outlets

- Automatically tests every three seconds
- Indicator light flashes if the GFCI needs to be replaced

Chemical-Resistant Switches

- Tough enough to withstand daily deep cleaning
- Rigorously tested to perform smoothly

Power down from the ceiling.

Don't detract from big work. Add power and charging to labs with convenient poles and ceiling boxes. They blend right in with the space and offer convenient connections right beside busy workstations.

Power Poles

- Combines lighting and power in a single pole
- Easy-to-install, easy-to-use and unobtrusive

Medical Ceiling Panel

- Secure connections that drop down from the ceiling
- Choose your connections, receptacles and knockouts
- Customizable for any medical setting

Power overhead.

Out of sight and out of mind. Run cables and cords up above. It's more efficient, easier to manage and quick to install. If you ever need changes, it's simple to adjust and move.

Wire Mesh Cable Tray

- Tested to hold large cable loads
- Quick-and-easy box and lighting attachment
- Adapts to any lab configuration
